Between Two Sacks of Flour

there may seem no difference except the name. But if one of them is PURITY Flour there is a big difference. Telling you about the superiority of PURITY flour doesn't prove. But if you will try a sack to-day you'll have plenty of proof of its superior excellence in the better bread, cake and pastry you bake. It suits others it will suit you.

Letter from Elder Morgan.

S. S. Canopic, March 29—We are nearing the Azors, and "to my great joy" we will land and have seven hours there. Isn't that fine? The principal product of these islands is oranges. They are said to be extra fine. We have already sighted one of the group and you may be sure it looked mighty good after nearly six days of rough seas. Nobody can tell when this letter will start for America because ships stop irregularly. This is why I am saving back my big letter for Gibraltar, a letter from there will reach you and this may be lost.

I would like to enclose some of my own pictures. You cannot imagine how successful I have been with my negatives. They are the talk of the ship. Mr. Kendle who develops them for me has made a large number from my negatives and sold them and has orders for many more. Everybody wants my picture of the Pilot boat which I took as we came out of Boston Harbor. You can have no idea how much pleasure the kodak has given me.

The wind and sea have quieted to-night, and the sea-sick folk are nearly all on deck again. We have had high winds and a rough sea nearly all the way. Yesterday the waves were immense. Scores of the people have been sick, some of them all the way, though I haven't been sick at all.

I have just gone out on deck to see an immense cloud rising out of the East. It looks in the night like a huge mountain range not a mile away. It looks like another storm, but if this letter reaches you, you may know we are all right, for it will not leave the ship until we land at the Azors in the morning early. My diary letter which will tell you about my voyage day by day in detail, will be mailed at Gibraltar, which we will not reach for nearly a week yet, for we stop at the Maderia Islands for a day. I will risk another letter from there, though it is all a risk. Mr. Wallace Thorp and I are together a great deal.

CAREY E. MORGAN.

Skull Fractured by Blow.

As the result of a quarrel over the settlement of a sale of tobacco Luther Reeves, a farmer residing near Rudles Mills, was struck on the head with a rock, which was thrown by his son, Thomas Reeves, and is in a critical condition at his home, his skull being fractured. Young Reeves was to leave for Missouri Friday. When he trouble occurred medical aid was summoned, Dr. G. L. Rankin and Dr. J. S. Wallingford, of Paris, responding.

Upon arrival of a physician at the bedside of unconscious man a hurried consultation ensued; when it was decided that an operation was necessary in order to save his life.

Dr. Wallingford, assisted by Dr. Rankin, removed four pieces of the skull the aperture being nearly two inches square, leaving the brain and a ruptured blood vessel exposed. After the pressure upon the brain had been removed, the injured man regained consciousness and talked freely.

Late reports from the bedside of the injured man are to the effect that his condition is critical, paralysis having resulted from the pressure of the fragments of skull on the brain, and no hopes are entertained for his recovery.

The remorse of the son is pitiable and it is feared that in the event of the death of his father he will attempt to end his own life.

Business Changes in Paris.

The Singer Sewing Machine office has been moved to the Cook Grocery building, occupying the South side of the store.

B. F. Adcock, the real estate agent, has secured office headquarters in the office of the Home Telephone Company. C. P. Cook has engaged her services as clerk of Jesse Ellis, formerly with the Simpson & Ammerman Grocery company in Cynthia.

Rash & Fothergill are putting the store room on Main street, formerly occupied by the Singer Sewing Machine company in condition and will open a well ice cream and soda water parlor.

L. V. Mulfinger, of Lexington, has accepted a position as meat cutter with T. F. Roche.

Charles P. Bales, of Ford, Ky., is now the meat cutter in the Robneel grocery.

Retires from Business.

Mr. James A. Stewart, after a service of fifty years as druggist and pharmacist forty of which had been in the employ of druggist, J. B. Wilson and his father Dr. J. A. Wilson, will leave next week to spend the summer and fall with his niece, Mrs. C. P. Brown, in Shelby county for a much needed rest and to recuperate his health. Dr. Stewart came to Paris in the spring of 1870 and has been closely identified with the city's interests. He has been an active member of Paris Lodge No. 2, F. & A. M., and as a member of the Vestry of St. Peter's Episcopal church. Appreciating his many high qualities as a citizen and member of their fraternity the Masons of this city presented to Dr. Stewart a handsome gold watch which was designed by the jewelry firm of Shire & Fithian and inscribed as follows:

"Presented to James A. Stewart by Paris Lodge, No. 2, F. & A. M., Paris Chapter No. 15, R. A. M. and Coeur de Lion Commandery, No. 26, K. T. April 1st, 1910."

To Vote on "Noiseless Fourth".

The school children of Montclair, N. J., are to have the opportunity to vote on the question of a "noiseless Fourth." The Town Council took the view that inasmuch as the children were most interested they should be given a chance to vote. The returns will be considered by the Town Council. The fireworks dealers are stocking up in anticipation of the cuteme.

"Several associations have been organized for selling the produce of the farm. Among these is one for disposing of eggs. One association is at Dassel and another at Barnum. The general idea is to produce large and better eggs and market them in a systematic way. They would gather the eggs twice a day, keep them clean sort them, and throw out all under or over sized eggs and pack them for market in cartons holding one dozen each. The white eggs and brown ones are packed in separate cartons. All unattractive and dirty eggs are discarded so far as the market is concerned. The eggs are shipped direct from the producer to the city grocer or consumer. A guarantee of the facts is set forth on the carton concerning their quality, with a statement that any egg found defective in any way will be replaced free of charge. Such eggs bring several cents dozen more than those marketed in the ordinary hit or miss manner."

Making Eggs Profitable.

Minnesota is trying a plan that ought to appeal to progressive farmers in this section, the University of Minnesota bulletin describes it as follows:

"Several associations have been organized for selling the produce of the farm. Among these is one for disposing of eggs. One association is at Dassel and another at Barnum. The general idea is to produce large and better eggs and market them in a systematic way. They would gather the eggs twice a day, keep them clean sort them, and throw out all under or over sized eggs and pack them for market in cartons holding one dozen each. \$15 TO Insure

The ideal carriage horse is the American trotting bred horse, with size, speed, courage, and the true trotting gait, with plenty of knee and hock action. In addition he must have a clean cut head and neck, style and finish, plenty of substance without coarseness.

Recognizing the demand for this class of horses, I selected Taylor Simmons 23489, a young horse which fills all the requirements of the typical carriage horse. If the theory that "like begets like" be true, he will produce horses of this type when mated with good mares. Through his veins flow the blood of the greatest trotting families. He traces twice to George Wilkes and five times to Mambrino Chief II. This is backed by the stout thoroughbred blood of Boston.

STOCK, CROP AND FARM NOTES.

Rape for a grazing crop for hogs and sheep should be sown. The land should be in a good state of fertility and be put into fine order. The crop is greatly helped by applying 250 pounds of acid phosphate and 50 pounds of muriate of potash per acre.

H. F. Hillenmeyer, the noted fruit authority has announced that the fruit crop of Central Kentucky has not been injured by the frost or freeze and that a bumper crop of peaches, apples and small fruit may be expected if there is no additional frost.

The wool buyers and western wool growers are doing very little business together yet. The average sheep man in the west is in a position to make better terms for himself than at any time in a dozen years. He demands at least an average of last year's prices, and he is going to get mighty near what he is asking for his wool.

Nicholas Advocate "A farm near Maysville has on it an apple tree with a most remarkable history. The tree was planted and grew for years on an adjoining farm, which was separated from this farm by open road. The heavy windstorm which visited this section lifted this tree bodily and carrying it across this road dropped it in a hollow on the farm now owned by Mr. W. M. Allen. It took root and continued to grow and is now thriving nicely."

A test has recently been conducted by the State Agricultural Department of a Holstein cow a few days less than three years old and owned by E. La Munion, of Solsville, Madison county, N. Y. In seven days she averaged more than eighty pounds of milk a day and from this was made twenty-nine pounds of butter. It is said to be the world's record for a cow of her age. Cornell Agricultural College had a representative present constantly during the test.

The Central Kentucky Millers Association held a meeting in Lexington to discuss the wheat crop. The dry spring, it is stated, caused many farmers in Central Kentucky to plow up the wheat fields they had planted and for this reason the crop in Central Kentucky is expected to be below the usual acreage. Farmers who didn't plow up their wheat are glad of it as the recent general rains throughout this section are encouraging to the growing crops and an average yield is expected.

All Victims are Accounted For.

"All alive, 2 p. m., Nov. 14." This is the latest message from the fatal St. Paul coal mine, near Cherry, Ill. Tuesday with the recovery of thirty-one more miners bodies which had been entombed since the disaster of last November 13.

The bodies were taken from the locker level 300 feet below ground. The men had retreated to a space twenty feet square and had constructed a rude fan of boards to keep the air circulating. On the fan in big letters were chalked the letters quoted above, indicating the men had lived at least until the day after the fire. Evidently the men had taken turns at the crank of the fan, for one of the bodies had fallen over the handle, as if he had died while struggling to maintain an air current.

It was declared by the mine company's officials that all of the 300 or more miners entombed and killed by the disaster have been accounted for. A number of bodies located have not yet been brought up but within a few days the officials say, the story of the tragedy will be ended and the mine cleared.

Mason Leads in Tobacco Production.

The District Board of the Burley Tobacco Company met in Lexington Tuesday afternoon to hear reports from the counties of the amounts of tobacco received at the company's warehouses. Mason was the banner county, having received to date 6,191,155 pounds.

One of the leading men in the Board expressed the belief that the organization is stronger than ever before. He expects the tobacco to be bought by the manufacturers as soon as it is re-dried and ready to be delivered. He thinks the delay in buying is only a matter of business prudence on the part of the purchasers, who know that the tobacco will be sold for redried prices and they wish to see it in good keeping order before buying.

It Will Be Enforced.

One of the most important bills passed by Legislature was that defining the crime of abortion. At present there is no statute on the subject and the crime, if punished at all, must be under the common law which is indefinite and cumbersome. Under the old law it was almost impossible to convict anyone charged with the crime, but under the statute which becomes effective, now that the Governor has signed the bill, convictions can be obtained and will be obtained. The bill which passed two years ago was vetoed by the Governor on the ground that it was too loosely drawn to be effective, but the new law is so framed as to be tight.

Middlesboro Wants Press Gang.

The Middlesboro Commercial Club has started a movement to secure the midsummer meet of the Kentucky Press Association for Middlesboro, and to this end Senator J. F. Bowditch and Hon. R. C. Ford were appointed as representatives to attend the meeting of the executive committee of the association which was held at the Seelbach Hotel in Louisville Saturday situated in the heart of the Cumberland mountains, with its beautiful scenery and historic points of interest. Middlesboro will make an ideal meeting place for the "press boys." The association met in that city in 1897 and the citizens of Middlesboro demonstrated on that occasion what they could do in the way of entertainment. The meeting is to be held in June.

How About Publicity?

While the Republican orators are firing the opening guns of the Congressional campaign, says the Courier-Journal, it may not be wholly impudent to inquire why so little is heard about the publicity bill as a pending measure that should be passed?

President Taft has represented himself, and has been represented, as being an advocate of the bill, although Candidate Taft would have none of it. The campaign is at hand. Congress is in session. Parties legislate, and are responsible for their records. The historic method of gathering campaign funds from corporations and distributing them for purposes of corruption is becoming more and more odious. It seemed probable, for a time, that this Congress would pass the publicity bill in the hope of having something of which to boast next summer. But the session drags toward its end and inactivity grows increasingly suspicious.

Is the Republican party afraid to pass the publicity bill? Is it so much afraid of a measure looking to the separation of political campaigns from corruption that it is less afraid of publicity confessing than of alienating the affections of plutocrats who are Republicans or revenue only?

The publicity bill is a Democratic measure in the broadest sense of the term. There is every reason why it should become a law. There is no reason that can be stated by respectable persons why it should not become a law.

It would be, of course, wholly inconsistent, for the "regulars" who look upon what is conveniently termed "Aldrichism" as the sum of statesmanship to desire the enactment of a law aiming at prohibiting politicians from milking corporations for campaign funds. But if ever a political organization stood in need of a peg upon which to hang in argument against its total depravity that organization is the Republican party, and the peg that presents itself is the publicity law.

Will the Republicans have the effort to enter the campaign with the record of having killed this bill?

President Riles the Suffragettes.

President Taft was hissed at the convention of the National American Woman Suffrage Association in Washington Friday night. The President had been invited to deliver an address, and in the course of his remarks disapproved the proposition to give women the right to vote he said he was afraid the "undesirable class" would control, should the privilege be granted. This utterance was followed by a chorus of hisses from all parts of the hall. The President rebuked his audience with a sharp thrust. Later on he said his feelings had not been hurt.

DEATHS.

D. J. Hutchins, aged eighty-seven, one of the oldest and most respected citizens of Nicholas county, died at his home in Carlisle Friday morning about 9 o'clock, after an illness of several months. Mr. Hutchins leaves a wife and several sons and daughters. He was at one time one of the most prominent business men in Central Kentucky.

Mrs. Rosa McSherry, aged eighty, died April eighth, at the home of her daughter, Mrs. Nora Keller, in Cincinnati. The deceased was the relic of the late P. H. McSherry, of Paris, was a sister of J. T. Cassidy, of Lexington. The remains were buried in the Paris Catholic cemetery on April 9. Mrs. McSherry was well known here and was most estimable woman.

Pooled Tobacco Coming In.

The handling of the 1909 crop of tobacco so far as independent dealers are concerned has about come to a close.

Pooled tobacco is yet coming in from the barn farmers throughout the county and is being handled by the Burley Tobacco Society at several receiving points in the county.

Abney & Mussinon, independent dealers of this city, finished last week prizing and shipping their last purchase of the season. During the past four months this firm bought, prized and shipped an aggregate of 2,100,000 pounds of tobacco for which, in crop lots they paid from 10 to 15 1-2 cents per pound, and paid out for labor in the handling of the tobacco the sum of \$5,000.

MATRIMONIAL.

The marriage of Miss Julia Hogue Spencer to Mr. William Breckinridge Ardery of Paris, was celebrated Thursday evening in Central Christian church, the bride's father, Dr. I. J. Spencer, minister of the church, officiating. The decorations were extremely artistic, the wall back of the pulpit lined with southern smilax, palms and ferns banked in front of this, among the green many cathedral candles in three groups and two immense baskets of white ascension lilies tied with white tulle.

During the assembling of the guests a brilliant program of music was given by Mrs. John C. Taylor at the organ, Miss Virginia Parker, the piano, Prof. Bruce Reynolds, the violin, and two solos by Miss Sarah Van Meter, "Garden of Roses" and "My Dear," most charmingly sung.

To the music of the "Melody of Love" there was an interesting surprise when sixteen of the Delta Delta Fraternity of Transylvania University, Misses Nancy Lyne, Martha Ferguson, Ethel Reynolds, Laural Carpenter, Helen LaFerty, Mabel Williams, Lelia Yancey, Anna May Gladwy, Maria Dudley Hume, Florence Stoll, Daisy Hume, May Robinson Elizabeth Fisher, Frances Roy and Frances Willis, entered and came along the two aisles. All were handsomely gowned and were most attractive as they passed down to the front of the church and occupied seats marked off with white lilies and smilax.

Then came the Bridal March from Lohengrin and the wedding party entered, led by the ushers, Mr. Shelby Shanklin, of Lexington and Mr. Fay Ardery, of Paris; Mr. John Davis, of Paris, and Mr. Richard Williams, of Somerset, preceded the bride who was accompanied by the maid of honor, her sister, Miss Eva Spencer. As they reached the altar the bridegroom with the best man, Mr. William Woodford, of Paris, came from the vestry room, and joining the bride, they stood with attendants on each side before the waiting minister, for the impressive and eloquent ceremony, kneeling on white satin cushions for the final prayer and blessing.

The bride looked beautiful in her wedding gown of soft white satin elaborately trimmed with point lace and with orange blossoms. The tulle veil was caught with a cornet of orange blossoms and she carried an exquisite shower bouquet of lilies of the valley.

They were remembered with many gifts, making a very beautiful and elegant collection of pictures, cut glass, silver, embroideries, china, furniture, etc.

The bride is a young college girl of unusual charm and brightness, and the youngest daughter of her house, where she is the object of the deepest devotion. She is a representative of some of Virginia's finest old families.

Mr. Ardery is a lawyer of splendid capabilities and practices his profession in this city. His father is Mr. William P. Adey, of Bourbon county.

Will Meet Tonight.

The Young Men's Club of the Christian church will meet in the parlors of the church this evening at 7:30 o'clock. Dr. R. H. Crossfield, of Transylvania University will be present and address the meeting. All members of the club and young men of the city are requested to attend the meeting.

Buggy Demolished.

Kuhn Owns Shelbyville Club.

For a long time the fans in Shelbyville have been wondering whether they were going to have a team in the Blue Grass League this season. Now it is a sure thing for the Board of Directors of the Shelbyville Base Ball Association has made the final transfer of the club to Anton M. Kuhn. The club was \$700 in debt from last season. The conditions on which the directors transferred the club to Kuhn was the payment of \$300 and the directors went down in their own pockets and dug up the remaining \$400. Manager Kuhn starts out with the club free of indebtedness and sole owner of the stock.

men were signed, Kuhlman, who was about two weeks ago was secured by Manager McKernan, reporting yesterday.

McKernan thinks Kuhlman will be a valuable acquisition to the Paris team, and believes he will eclipse anything in the Blue Grass League in the infield. It was upon his personal recommendation that the Paris club agreed to give the infielder a trial. Eighteen men have up to this time reported, with six more to come, which will bring the number up to 24, ten of which are pitchers, from which the management to pick.

The report coming from Lexington to the effect that the team of the Transylvania University had been disbanded following the action of the faculty in declaring one of their best men ineligible to take part in its games put a damper on the game scheduled for this afternoon with that club, but if the grounds should be in the proper condition Manager McKernan states there will be an exhibition game at White Park this afternoon.

Manager McKernan is in receipt of a communication from John Scott, who last season played with the Paris club, and who has been holding out for an increase in salary, stating that he would be in Paris on April 23, to confer with the management in an effort to reach a satisfactory agreement.

Several weeks ago Scott was mailed a contract which carried with it an increase in the salary he received for his services last season, but the increase, in his opinion, was not enough, and since he has stubbornly refused to sign. His indifferent attitude has been the means of spurring the local management in their efforts to secure more material for the infield, and two

Free Child's Remedy

What mother is not looking for something that will help her children in the little ills of life, something for the stomach trouble and the bowel trouble? Long ago she probably has become convinced that a child cannot readily swallow a pill or a tablet, and that to "break them in half and crush them" is an annoyance; that usually they work too drastically and are nauseating and too powerful for the little ones' stomachs.

Any mother who will tell the trouble of sending her name and address can obtain a free sample bottle of a remedy that thousands of other mothers are using and now paying for. This remedy is Dr. Caldwell's Syrup Peppermint and the offer of a free trial bottle is open to any mother who has not used it. Having used it and convinced yourself that it is what you want, you can obtain it in the future of your druggist at fifty cents and one dollar a bottle, just as so many others are doing, the free sample being simply a concession of its merits. It is the best way to begin on it. Dr. Davis of 187 W. Harrison street, Chicago, and Mrs. Mary Belford, 1710 Coke street, Louisville, Ky., both started with a free sample and now they write that they have never been without a bottle since.

This is doubtless a great family remedy, as it is adapted to all ages, being mild and pleasant to take and yet thoroughly effective.

It is especially the ideal remedy for children and women and old folks, who need something pure, mild and natural. It has the advantage of being a thorough laxative and yet contains tonic properties. Use it for the stubborn constipation, indigestion, liver trouble, sick headache, sour stomach and such complaints with a guarantee that it will cure.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail.

For the free sample simply send your name and address on a postal card or otherwise. For either remit the doctor's address is Dr. W. H. Caldwell, R. 500 Caldwell building, Monticello, Ill.

Morris Belknap, once Republican candidate for governor of Kentucky and one of the most prominent business men of the State, died in Louisville Wednesday at the age of 53. Physicians believe that Col. Belknap contracted the blood disease of which he died, while serving as lieutenant-colonel of the First Kentucky Regiment in Porto Rico, during the Spanish-American war. Colonel Belknap was a member of the Belknap Hardware Company.

Should Be Changed.

Complaints have been numerous in the past few weeks in regard to the mail boxes in this city, and an accident of a very painful nature is reported as a result of a pedestrian striking a box with his head while passing. In a number of cases where the mail boxes are on the street corners they are located in such a position as to render it almost impossible for a person passing them on a crowded street to avoid striking them, and they should be changed to prevent any further accidents.

South's Great Interest in Live Stock Projects

Cattle and Sheep Husbandry and Other Avenues Grow in Importance.

In no section of the American states is more attention being given to the study of cattle raising, sheep husbandry, horse and mule culture, etc., than in the south. The mountainous country in West Virginia, Alabama, North Georgia, North and South Carolina, Tennessee, Virginia and Kentucky, afford fine fields for stock raising and kindred industries. This section, which is better known as the Appalachian region, is to be extensively exploited in a great Appalachian Exposition in Knoxville, Tenn., Sept. 12 to Oct. 12, of the present year. It will be a four weeks' series of exhibitions that will surpass anything of the kind yet undertaken in the south. Live stock, sheep, hogs, horses, mules, poultry, dogs, etc., will be there from all parts of the Appalachian region. The large buildings that are now under construction for the accommodation of these exhibits guarantee that they will be splendidly displayed, and that they will be among the chief features of the exposition. The agricultural products of the Appalachian states will also be conspicuously displayed, and products of domestic science, etc., will attract attention. Every avenue of commerce and industry in that region will be exhibited, and of course no little space and money will be devoted to the amusement features of the exposition. It is confidently asserted that the exposition will be worth traveling many miles to see, and Knoxville will be able to accommodate the hundreds of thousands of visitors who are expected.

Will Judge Some of Poultry Exhibits.

Men of National Fame Engaged for Appalachian Exposition Board.

Among the poultrymen of nationwide repute to judge the birds to be displayed at the Appalachian Exposition in Knoxville, Tennessee, September 12 to October 12 is Judge F. J. Marshall, of Georgia, who was last year voted the most popular judge in the south. Mr. Marshall has been thoroughly identified with the poultry interests of this country for twenty-five years. He has judged all classes, including the largest shows and expositions, such as Chicago, St. Louis and Jamestown Expositions, and such shows as Chicago, Detroit, Cincinnati, Pittsburgh, Washington, Augusta, Charleston, Birmingham, Dallas and scores of others. He is a member of the standard revision committee of the American Poultry Association for 1910.

Judge D. M. Owen, of Tennessee, has been officiating at poultry shows for the past twenty-two years, and is very popular with all classes. He has judged at many of the larger shows, including Kansas City, St. Louis, Louisville, San Antonio, New Orleans, Memphis, Montgomery, and at the Piedmont Exposition several times. He is a life member of the American Poultry Association and an official judge of the Brown Leghorn Club of America.

The Appalachian Exposition Poultry show will be the best the south has ever seen, and poultrymen appreciate the fact that this is the opportunity to show to the world what the south has in poultry.

Government Fisheries Exhibit For the South

Will Be Displayed as One of the Features of the Appalachian Exposition.

Among the many benefactions the United States government is giving its people, one of the most important to the mountain streams of the south, is the replenishing of fish. The fish hatcheries, one of which is located in the Appalachian region at Erwin, Tenn., supply millions of fish to rivers and smaller streams. The methods of fish culture, as conducted in these hatcheries, will be fully demonstrated in the fish exhibit, which the federal government is to make at the Appalachian Exposition, to be held in Knoxville, Tenn., September 12 to October 12, of this year.

BUILDING NEW HOTELS.

Knoxville Preparing to Entertain 500,000 Exposition Visitors.

The people of Knoxville, Tenn., in which city the Appalachian Exposition is to be held September 12 to October 12, next, are making extensive preparations to handle the large crowds of visitors, that are expected.

In addition to the five large hotels already established there, a sixth hostelry was opened a few weeks ago, and a seventh is now under construction to be completed by July 1. The latter has about 150 rooms and is modern in every particular. Committees are now at work cataloguing boarding and rooming houses, with a view to giving every visitor to the exposition comfortable and agreeable quarters. It is estimated by the department of admissions that at least 500,000 people will visit the exposition during the four weeks it continues. One thing is certain, Knoxville will be able to house all its visitors.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glycerine extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of KNOWN COMPOSITION. Ask YOUR NEIGHBORS. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Killed By Freight Train.

Lawrence Honan, of Cynthiana, aged 20 years, fell from a freight train a short distance South of Lair Saturday morning and was instantly killed. The mangled remains were found Sunday morning by a track walker and were taken to Cynthiana for burial. Honan had been in this city, and it is believed he missed the regular train and was returning to his home on the freight. About two years ago he fell from a train and sustained severe injuries from which he had recovered.
